Storyboard Quick!

Storyboard Quick™

Storyboard Quick is the easy-to-use, quick-to-create, professional storyboard tool for directors, writers, producers and creatives who need a perfect combination of power, creativity and ease of use.

Storyboard Quick, the most widely used storyboarding software of its kind, bridges the gap from script to screen. Preproduction planning is an essential element to the most successful projects. For more than a decade, PowerProduction Software's StoryBoard Quick has blazed the trail for the industry standard of quick, easy, professional digital storyboards. Now with even more control and flexibility, StoryBoard Quick assists you in becoming more productive than ever! Organize your ideas, create your shots, sell your ideas and make the most of your valuable time with StoryBoard Quick!

Storyboard with style!

Storyboard Quick's easy to use, intuitive interface lets you compose shots and frames fast.

Characters! StoryBoard Quick comes complete with an all new cast of great looking, multi-angled, rotatable characters to bring your ideas to life.

Locations! Hundreds of stylish looking locations, both Interiors and Exteriors of all different genres to choose from. Even import your own.

Props! Now even more props to give your boards that extra detail you've been looking for.

Create a custom cast!

Storyboard Quick lets you customize the colors of your cast from skin tones to shirts, from hair to shoes...you create the look.

also:

Print your boards with ease! Professional layouts complete with headers, footers, page numbers side by side with your script or caption.

Layer Digital Photos and Locations!

Drag and drop digital location photos into the frame and layer characters on top.

Import your script! Use any of the major screenwriting software as well as regular text files and import right into StoryBoard Quick!
